

Andrii Taran

SENIOR FULL STACK ENGINEER

Mexico — Open to remote EU/US/LATAM

dev.taran@proton.me

+52 998 213 11 67

SKILLS

FRONTEND

React, Next.js, Vue.js

BACKEND

PHP — Laravel, Node.js

DATABASES

MySQL, PostgreSQL

TOOLS & CLOUD

Docker, Supabase,
REST APIs, Claude Code

STRENGTHS

System architecture
Performance optimization
API design
Scalable systems

LANGUAGES

Ukrainian Native

Russian Fluent

English Intermediate

Spanish Basic

EDUCATION

Specialist, Computer Systems

Odessa State Polytechnic
University

Bachelor, Computer Systems

Odessa State Polytechnic
University

ADDITIONAL

Distributed remote team
experience

Strong async communication

Self-managed & proactive

Interests: cooking, breathwork
facilitation, movement practices,
music

PROFILE

Senior Full Stack Engineer with 15+ years of experience building scalable web applications and APIs. Strong expertise in React, Next.js, and PHP ecosystems, with a focus on performance optimization, system architecture, and product-driven development. Experienced in fully remote teams, contributing to high-impact projects, and leading engineering initiatives from concept to production.

EXPERIENCE

Senior Full Stack Engineer

Aug 2020 – Apr 2025

LUEP — REMOTE

- Designed and developed scalable RESTful APIs supporting web applications
- Integrated backend systems with Next.js frontend architecture
- Improved API performance and reduced response times by ~30%
- Collaborated in a fully remote Agile team (sprints, standups, planning)
- Contributed to architectural decisions and system optimization

Full Stack Engineer

Nov 2016 – Aug 2020

NEEDLS MEDIA INC — REMOTE

- Optimized backend systems and database performance for advertising platform
- Integrated Facebook Marketing API to improve campaign automation
- Participated in architectural planning and system scalability improvements
- Researched and implemented new tools to enhance development efficiency

Lead Full Stack Engineer

Jun 2015 – May 2016

NOVP — REMOTE

- Led a team of developers, assigning tasks and tracking progress
- Developed full stack solutions including REST APIs and frontend systems
- Improved delivery workflows and team productivity

Full Stack Engineer

Feb 2011 – Nov 2015

NORSE DIGITAL — ODESSA, UKRAINE

- Led integration of SugarCRM with SKIDATA systems
- Developed backend services and REST APIs, PHP, JavaScript
- Worked in SCRUM team delivering scalable web solutions
- Maintained and improved legacy CMS platforms (eZ Publish)

PHP Developer

Jul 2007 – Jan 2011

BRIDGE UKRAINE — ODESSA, UKRAINE

- Built and maintained dynamic web applications using PHP, JavaScript
- Worked with databases and API integrations

- Collaborated with frontend developers to deliver user-focused features

PROJECTS

Skiioo

2012 – 2015

B2B2C Platform for Ski Resorts

- Contributed to development of platform connecting resorts and customers
- Built backend systems and integrations supporting business operations
